SARLAS S.A.

Sarlas Company, founded in 1977, specializes in fabrics for residential and contract use, with facilities in Nea Ionia and a showroom in Chalandri, Athens.

Our company offers exclusive collections of curtains and upholstery fabrics, featuring luxurious textures and refined patterns, in collaboration with leading international mills.

At the same time, we represent major European fabric houses such as Nobilis, Gancedo, and others.

Finally, our company has established its presence worldwide, with constant participation in leading exhibitions - Heimtextil, Deco Off - and our fabrics can now be sourced everywhere.

SARLAS CONTRACTS PROJECTS

Our company has completed a large number of projects in collaboration with leading architects and interior designers.

Our collection is continuously enriched with exquisite upholstery fabrics for both indoor and outdoor use.

At the same time, the collection is updated with fabrics of special specifications such as:

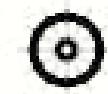

Antibacterial – Antifungal

Easy to clean

Fire Retardant

MED 3.20 c (2014/90/EU) / IMO Part 8

Outdoor Use / UVA resistant

High Martindale rubs

Body fluids resistant

Water repellent

RECASENS - SENS

RECASENS is a family business which was founded in Barcelona in 1886, and which continues to expand internationally, thanks to our ability to innovate, develop, manufacture and market high performance technical and decorative fabrics.

SENS is the upholstery brand of RECASENS. It crafts high-end fabrics embodying a thoughtful approach. SENS manufactures endurant fabrics which seek to be part of exquisite furniture and spaces, tell stories, and build meaningful and timeless environments.

With a fusion of sense and sensitivity, SENS stands as a trailblazer in quality, delivering top-tier outdoor & indoor textiles tailored for residential, commercial, contract and marine upholstery.

SARLAS X RECASENS

At SARLAS, we are proud to exclusively represent another prestigious high-end brand in the Greek market.

RECASENS is an ideal partnership for us, as its exceptional product range perfectly aligns with the needs of the Greek and Mediterranean environment.

Designed to withstand intense sunlight, UV exposure, and coastal conditions, its fabrics combine outstanding durability with refined aesthetics.

Through this collaboration, we reinforce our commitment to offering innovative, high-performance textile solutions that meet the highest standards of quality and design.

SENS - ENDLESS FABRICS

SENS creates long-lasting fabrics because durability is the most effective way to reduce resource consumption, waste, and environmental impact.

All products are PFAS-free, eliminating harmful per- and polyfluoroalkyl substances that persist in the environment and may pose health risks.

Production waste is carefully separated and recycled whenever possible, supporting responsible manufacturing.

Additionally, all factory water is purified through physico-chemical, biological, and activated carbon treatment, ensuring minimal environmental impact.

SENS COLLECTIONS

SENS
ENDLESS FABRICS

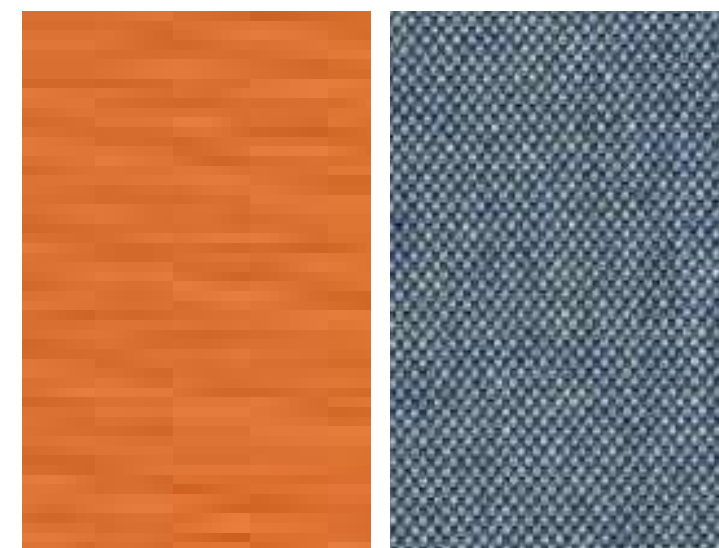

“SOLIDS & TEXTURED” COLLECTION

Upholstery fabrics SENS are designed for outdoor use, having exceptional resistance to fading by sun and salt water since they are 100% solution-dyed acrylic fabrics. They are suitable for making furniture, cushions, interior, and outdoor upholstery.

As a result of their exclusive Infinity Plus Plus finish (PFAS free), they are water, dirt and mould repellent. Thus, they are easy to clean and to maintain.

→ The special Waterproof finish is available in 11 colors of the Solids collection. It is possible to apply this finish to any other collection with a minimum order quantity.

Earthy toned palette with interesting shades:

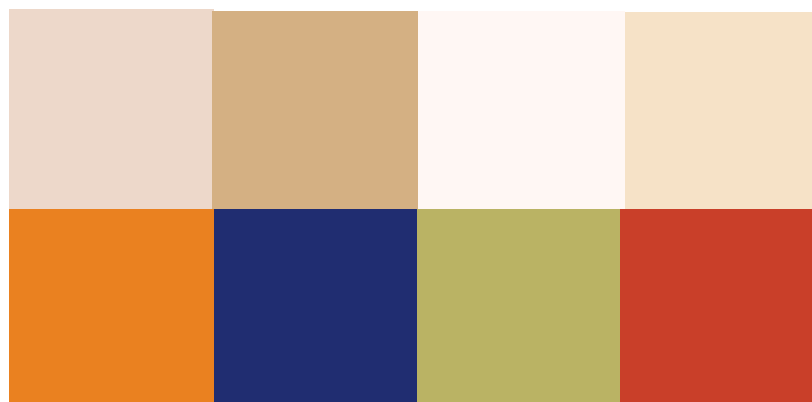

“BELIZE” COLLECTION

A collection that breathes rhythm, light, and movement. Its striped designs combine color, contrast, and proportion to create spaces with their own unique personality, capable of transforming an indoor or outdoor environment with a single glance.

With a palette ranging from the most serene neutrals to the most vibrant and energetic tones, BELIZE allows you to dress your space according to the emotion you wish to convey: calm, freshness, vitality, or sophistication.

Colour palette from serene neutrals to energetic tones:

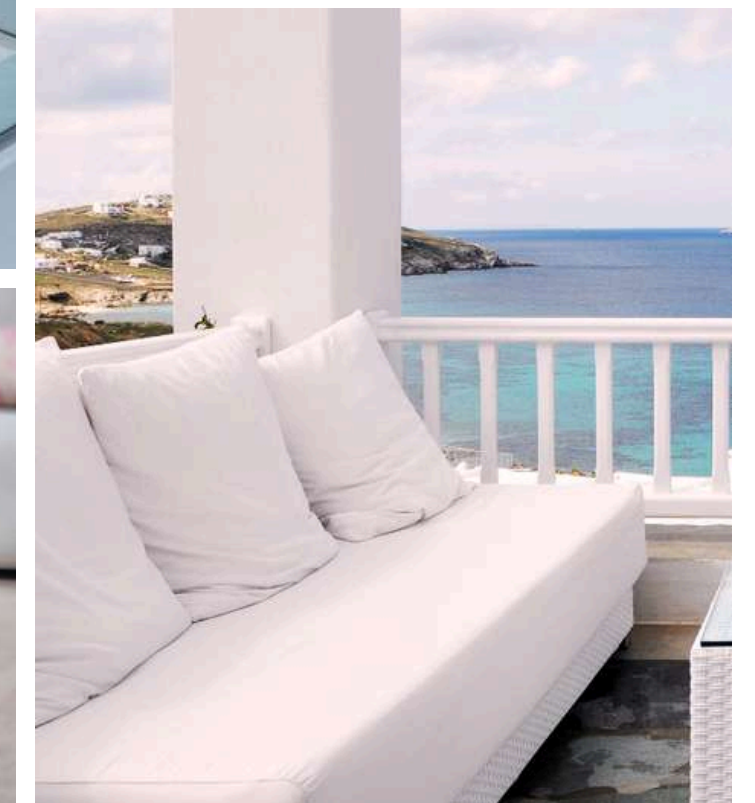

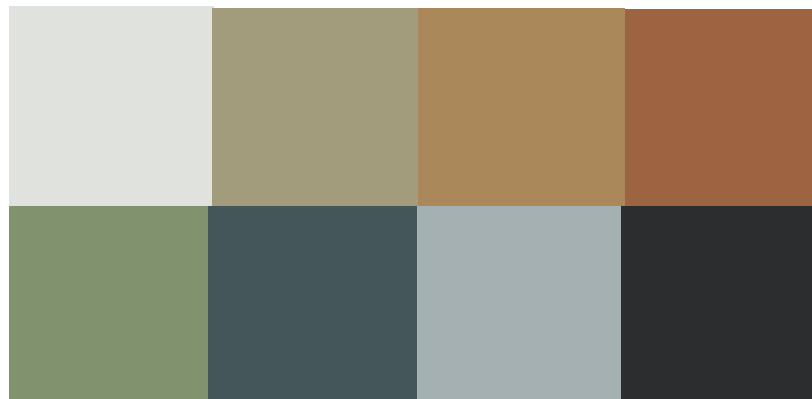

“ETERNAL” COLLECTION

A collection that exudes calm. Its soft lines and natural tones evoke sun- drenched terraces, warm stone walls, and afternoons that invite you to pause time.

These are fabrics that envelop you, transforming any space into a serene, intimate, and vibrant refuge.

The colors of ETERNAL allow you to create serene, elegant, and perfectly coordinated environments. It’s a palette designed to integrate seamlessly into any architectural or decorative style.

Colour palette ideal for every project:

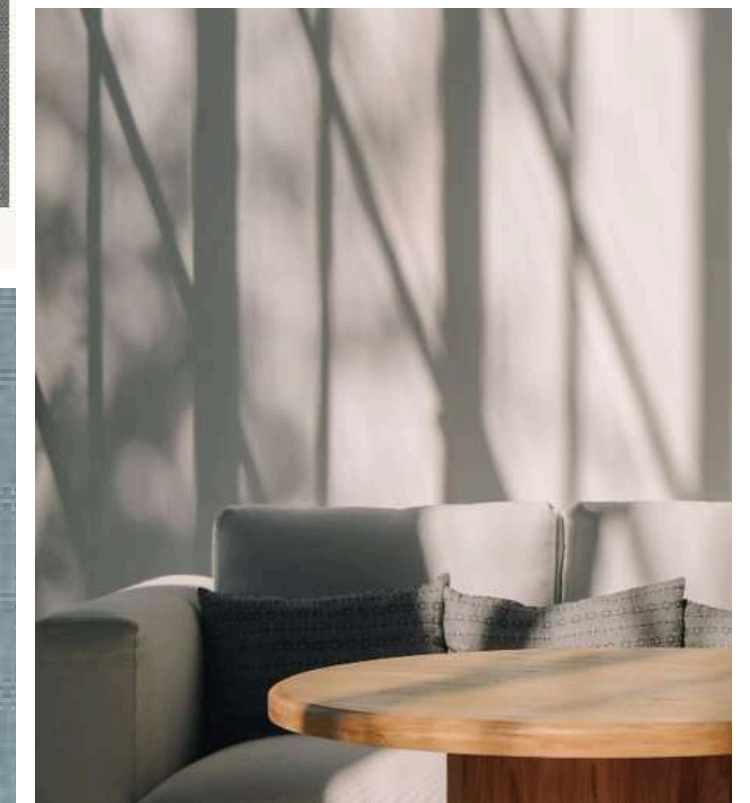

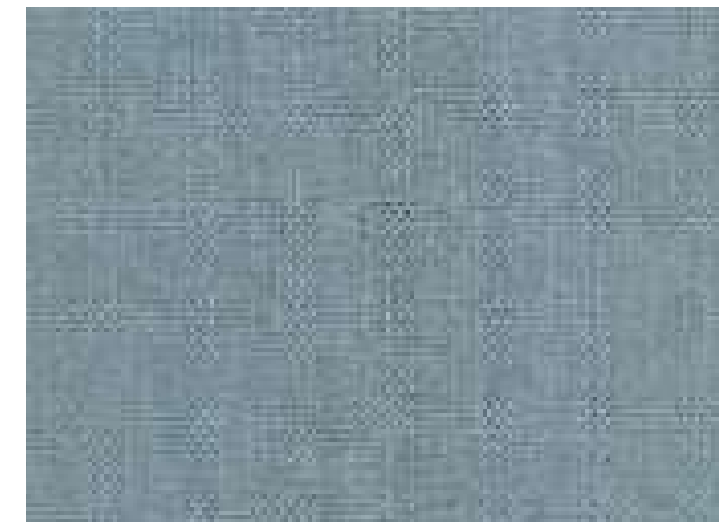

“FINESSE” COLLECTION

A collection that celebrates well-crafted simplicity: fabrics with visual substance, a delicate weave, and a chromatic interplay that blends naturalness and vibrancy.

Each shade, from the softest to the most intense, conveys a different emotion:

Iguana brings freshness and a connection to the organic, Pumpkin radiates energy and contemporary warmth, Seashell softly embraces the light, Sky invites calm and spaciousness, while Charcoal Grey brings depth, sobriety, and balance.

Colour palette that conveys a different emotion:

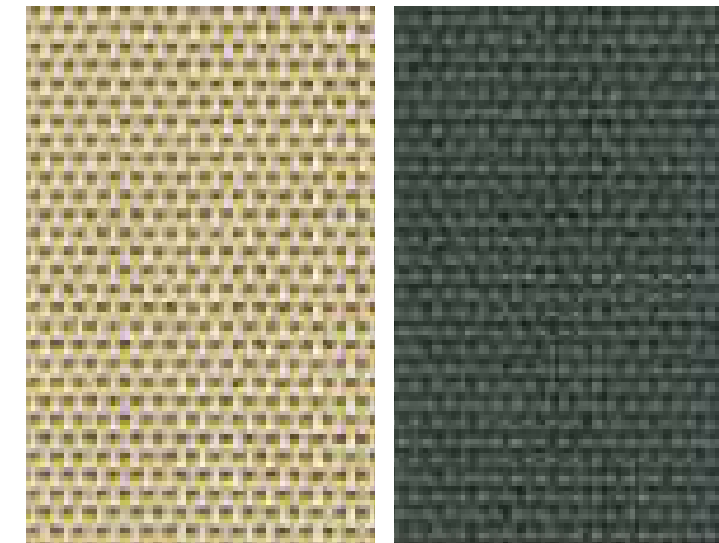

“ENEA” COLLECTION

ENEA collection is born from light:

from that moment when the sun touches surfaces and transforms the everyday into something warm, vibrant, and full of life.

Its fabrics capture that feeling—the radiant midday, the enveloping sunset, the feeling of a summer that never fades.

Colour palette that captures the feeling of summer:

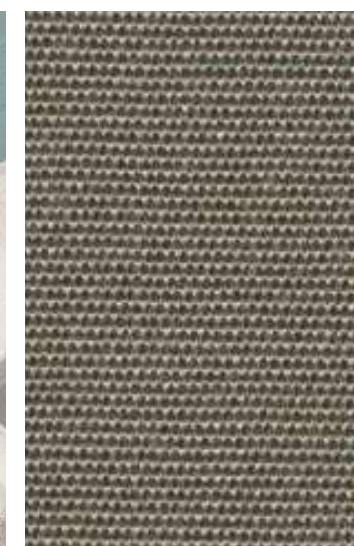

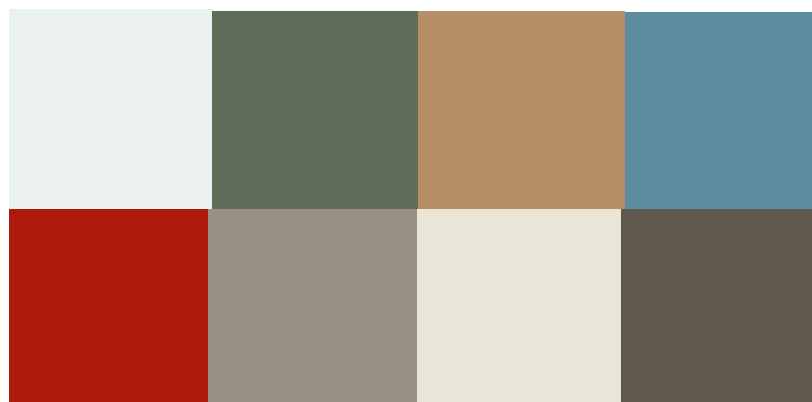

“WATERPROOF” COLLECTION

WATERPROOF collection’s textiles are designed to achieve superior waterproofing, giving water columns over 2000 mm. They are for outdoor use, having exceptional resistance to fading by sun and salt water, being suitable for making furniture, cushions, interior and outdoors upholstery.

As a result of our exclusive Infinity Plus Plus finish (PFAS free), they are water, dirt and mould repellent. Thus, they guarantee a high degree of resistance to the elements, and superior comfort, as they are easy to clean and maintain.

Colour palette that conveys a different emotion:

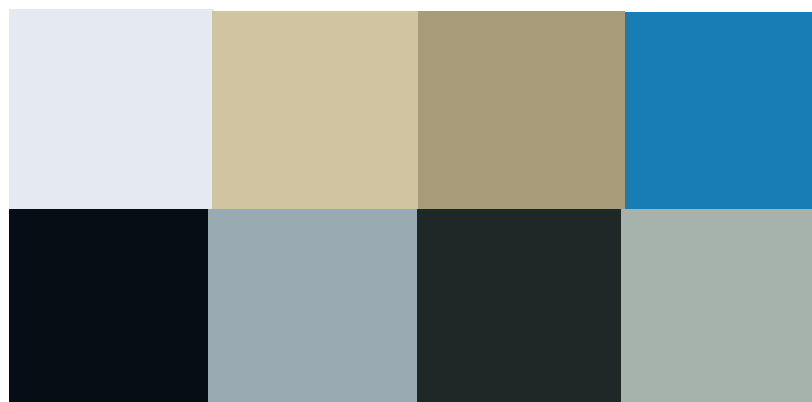

“SHAGGY” COLLECTION

An ideal choice for a variety of marine applications, such as sunbeds, covers, and fender covers.

SHAGGY fabrics are characterized by their looped pile, which gives them a soft and absorbent texture. Thanks to our exclusive Infinity Process, they are water, dirt, and mold repellent.

This ensures a high degree of resistance, easy cleaning and maintenance, and superior comfort.

Colour palette ideal for marine environments:
